

MUHAMMAD JUNAID FAHEEM

WordPress Web Designer | Elementor Pro Specialist

+92 327 7287372 | junaid@mifaheem.com | mifaheem.com | linkedin.com/in/mifaheem0007

PROFESSIONAL SUMMARY

WordPress web designer specialising in Elementor and Elementor Pro, working with clients since 2023. Practical experience building responsive business websites, landing pages, sales pages, and WooCommerce stores for direct, marketplace, agency, and international clients. Translates supplied designs and mockups into functional WordPress websites, configures themes and plugins, resolves layout and responsiveness issues, and manages projects from initial requirements through revisions to final delivery. Also experienced connecting website forms with CRM and no-code automation workflows.

Based in Pakistan. Open to UAE relocation and international remote roles.

EXPERIENCE

Independent client work has run continuously since March 2023, alongside the agency roles below.

Independent WordPress & Elementor Web Designer

Independent practice

March 2023 – Present

Direct, marketplace, agency, and international clients | Remote

Designing and delivering responsive WordPress websites, Elementor pages, landing pages, WooCommerce experiences, website redesigns, and ongoing updates for clients worldwide.

- Build responsive WordPress and Elementor websites from supplied designs, mockups, references, and written briefs.
- Deliver landing pages, multi-page business sites, sales pages, and WooCommerce stores.
- Redesign and modernise existing websites while preserving the content a business already depends on.
- Provide ongoing website support: layout fixes, plugin conflicts, content updates, and mobile responsiveness.
- Work directly with clients across time zones, from first brief through revision rounds to final handover.

Chief Technology Officer

Momentum Innovation Marketing (MIM / ScaleMIM)

February 2025 – Present

Digital marketing agency, United States | Remote

Lead WordPress and Elementor delivery for the agency's client projects, alongside continuing independent client work.

- Oversee and personally build client websites in WordPress and Elementor, from brief through to launch.
- Configure themes, plugins, forms, navigation, product catalogs, checkout flows, payment options, and shipping settings.
- Review and refine layouts across desktop, tablet, and mobile screen sizes before client handover.
- Resolve plugin conflicts, broken layouts, slow page loads, form issues, and responsiveness problems.
- Manage client requirements, feedback, revisions, and handover across concurrent projects.
- Connect website lead-capture forms to CRM and no-code automation workflows using GoHighLevel, n8n, and Make.
- Coordinate AI conversational tool integrations for client-facing websites using embedded widgets.

Website Project Contributor

Momentum Innovation Marketing (MIM / ScaleMIM)

2024 – February 2025

Project-based collaboration, prior to formal appointment | Remote

Contributed to company and client website projects on a project and collaboration basis, before the formal CTO appointment.

- Built and supported client website projects alongside the agency team.
- Delivered WordPress and Elementor work on defined project scopes.
- Continued independent client work in parallel throughout.
